

31st March 2008 Church Service Reading - Read by Suz Smith

THE ANGEL OF PEACE....

From: The Still Voice a White Eagle Book of Meditation

Beloved children, we ask you to see the power of the eternal spirit working throughout your lives. Think in terms of the smoothness of the power of God at work in your lives, in your health, in your affairs. All things are working together for good; be calm and patient. Do your best within your own capacity and see this beautiful power of love, the love of a father for his children, working through your affairs.

Whatever is placed before you in the form of tests, go calmly through and all will be well. You are on a path of ever-unfolding light and beauty and happiness. Be thankful always, be thankful to God, to the elder brethren, for their loving care of you. Out of darkness and chaos comes light. We would like you to feel this inexhaustible flow of spiritual healing, spiritual power to evolve all earthly things in a most perfect form. You have nothing to be afraid of because all your needs are supplied and all is well.

Live in the consciousness of the light, and know that all is progressing towards perfection.

You could save yourself so much pain, so much anxiety, if you would always seek for help at the spiritual level. Don't look to the material world for the guidance and direction you need, but seek always the spiritual contact, seek the place of inner peace and stillness and cultivate in yourselves a certainty of the power of God's love.

Your heavenly Father loves you and has given His angels charge over you, to care for you in all your ways...When you really know this, deep within, you will be at peace.
