

## ***'Ask the Geese'***

Have you ever wondered why migratory geese fly in a V formation?

As with most animal behaviour, God had a good reason for including *that* in *their* instincts.

As each bird flaps its' wings, it creates uplift for the bird following...

In a V formation, the whole flock adds at least 71% more flying range than if each bird flew alone.

*Did you know this?*

Whenever a goose falls out of formation, it suddenly feels the *drag* and *resistance* of trying to *fly alone* and quickly gets back into formation.

Like geese... people who share a common direction and sense of community can get where they are going *quicker* and *easier* than those who try to go it alone.

When a goose gets tired, it rotates back into the formation and another goose flies at the point position.

If people had as much sense as geese, they would realize that ultimately *their* success depends on *working as a team*... taking turns doing the hard tasks and sharing leadership.

Geese in the rear of the formation honk to encourage those up front, to up their speed...

It's important that *our* honking from behind be encouraging...

Otherwise... it's just... well... honking.

When a goose gets sick or wounded, two other geese drop out of formation and follow it down to help and provide protection.

They stay with the unhealthy member of the flock until it's either able to fly again or dies.

Then they launch out again with another passing flock or try to catch up with their own.

May *we* be so sacrificial, that *we* may be worthy of such friends in *our* time of need.

You don't have to be a scientist to learn from Gods' marvellous creation; you only need to stop long enough to observe and let God reveal His wonders to you.

This year is a 9 universal year bringing forward global consciousness and work for the betterment of humanity, and welfare that is driven to help humankind on a huge scale, and we've seen that recently with the trauma that humanity has been put through in so many different ways...

So, I ask you to open your eyes and see... see your world around you... see with the eyes of compassion... be the observer... be grateful and appreciative of whom you are and those who choose to share their lives and loves with you.

It's very important that we, like the geese encourage others with our personal form of honking...

“Ask now the beasts... and *they* shall teach you... and the

birds of the air... and *they* shall tell you... or speak to the Earth... and *it* shall teach you... and the fishes of the sea... shall *explain* to you.

Who among *all* these does *not know* that the hand of the Lord has done this?" (Job 12:7-9)

Someone... *asked* the geese...

Blessings.
